Ii is for Internet

Jj is for Java

Jj

PHP   Javascript   Go

C   Pearl

Pascal

Python   Java   Swift

Lisp

Shell   Fortran   Visual Basic

C++   Ruby

# Kk is for Key

K k
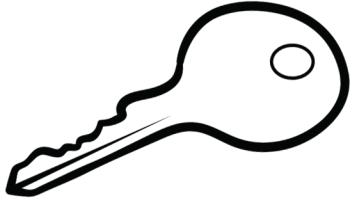

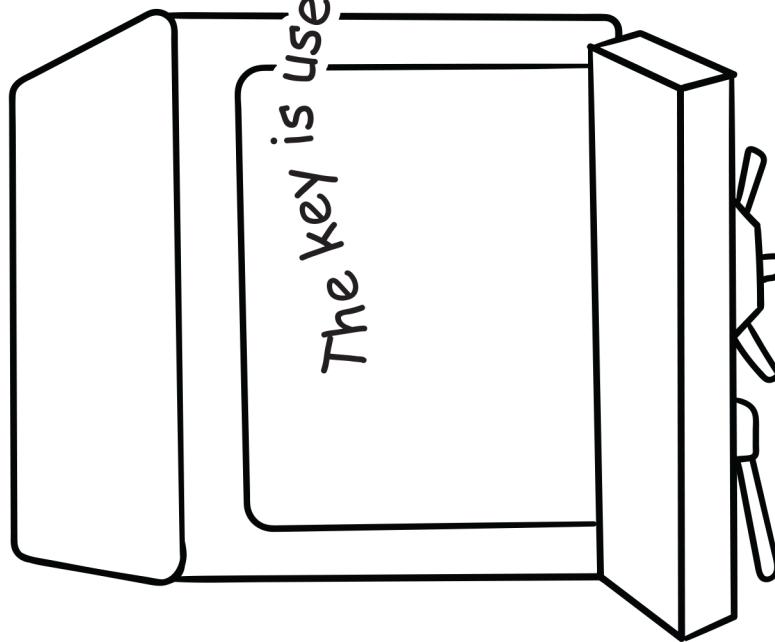

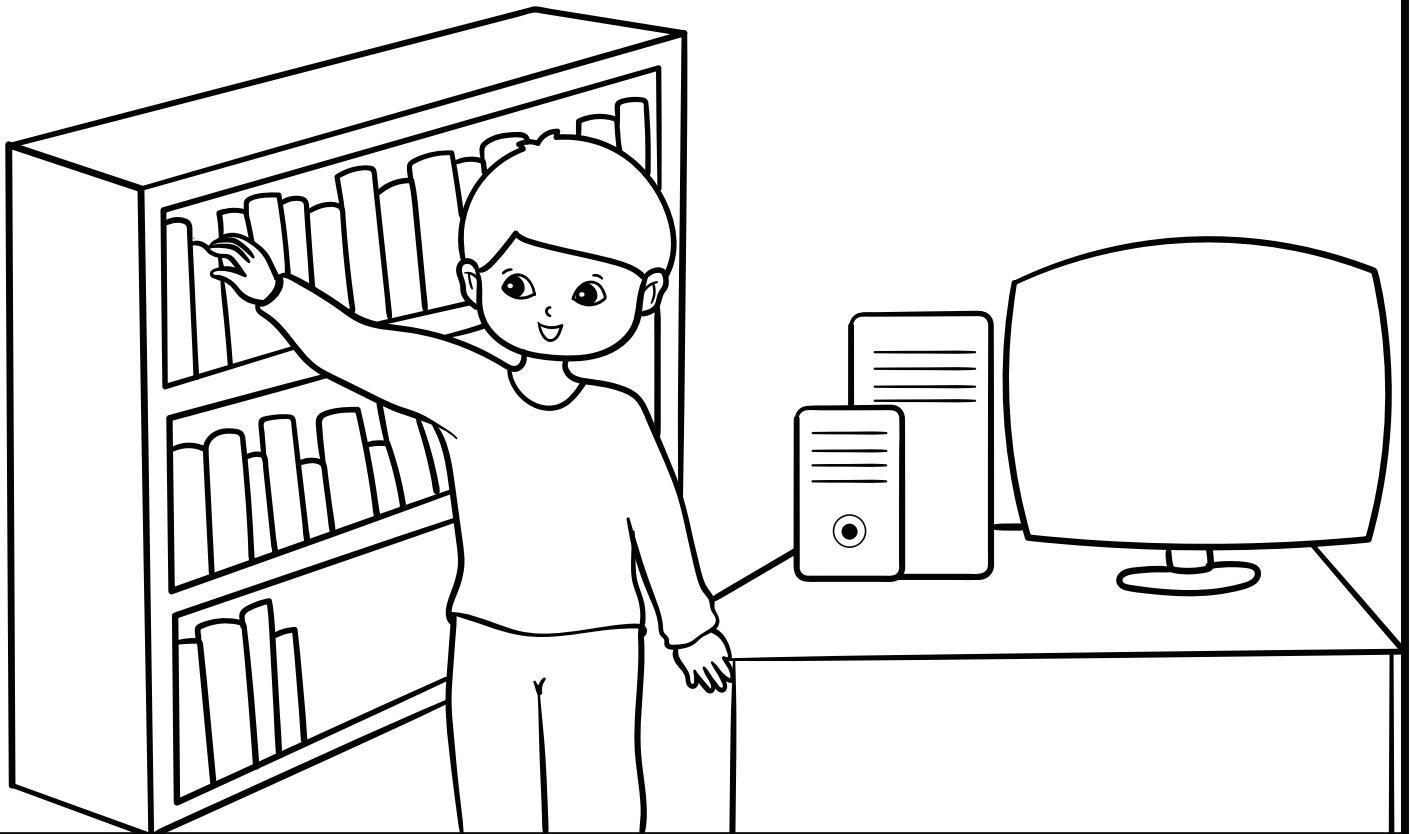

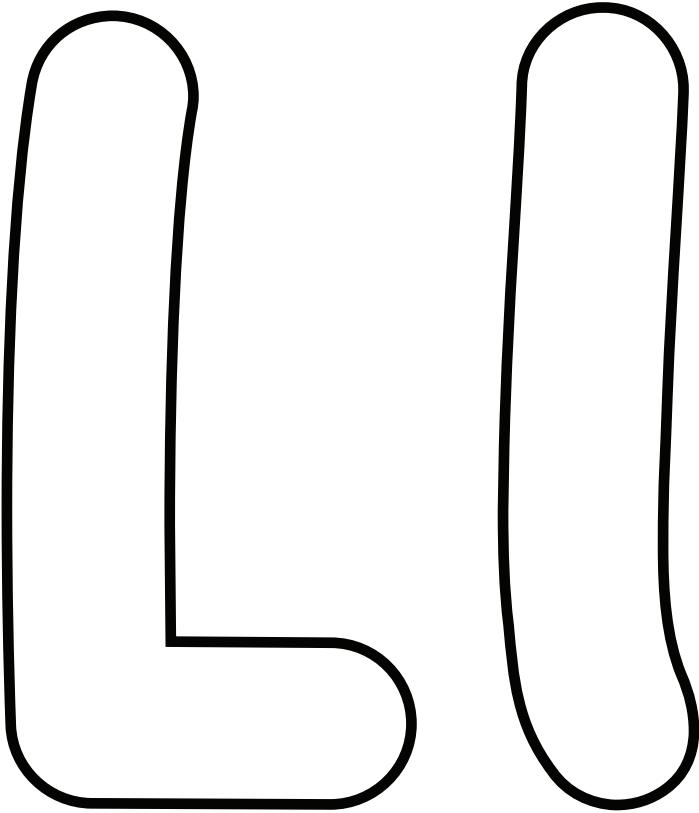

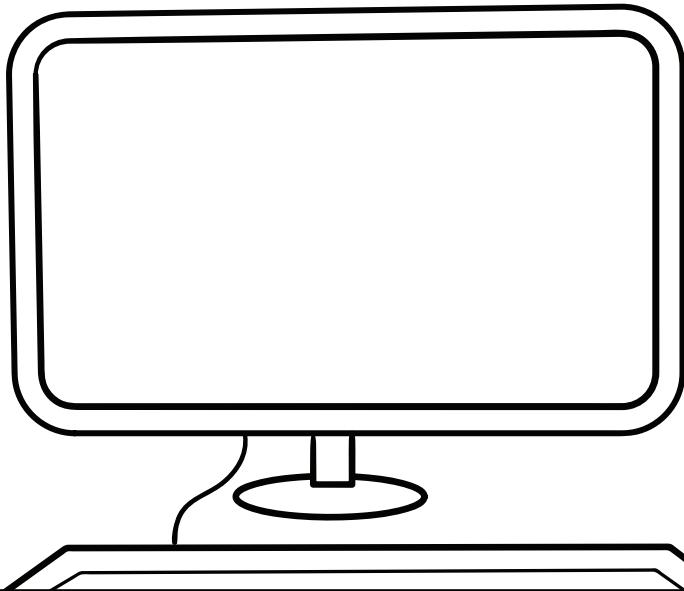

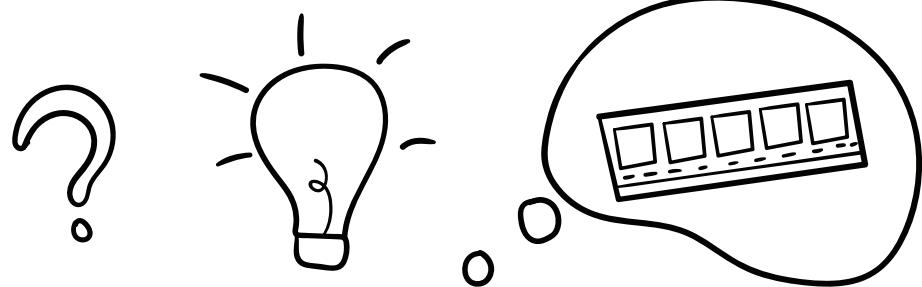

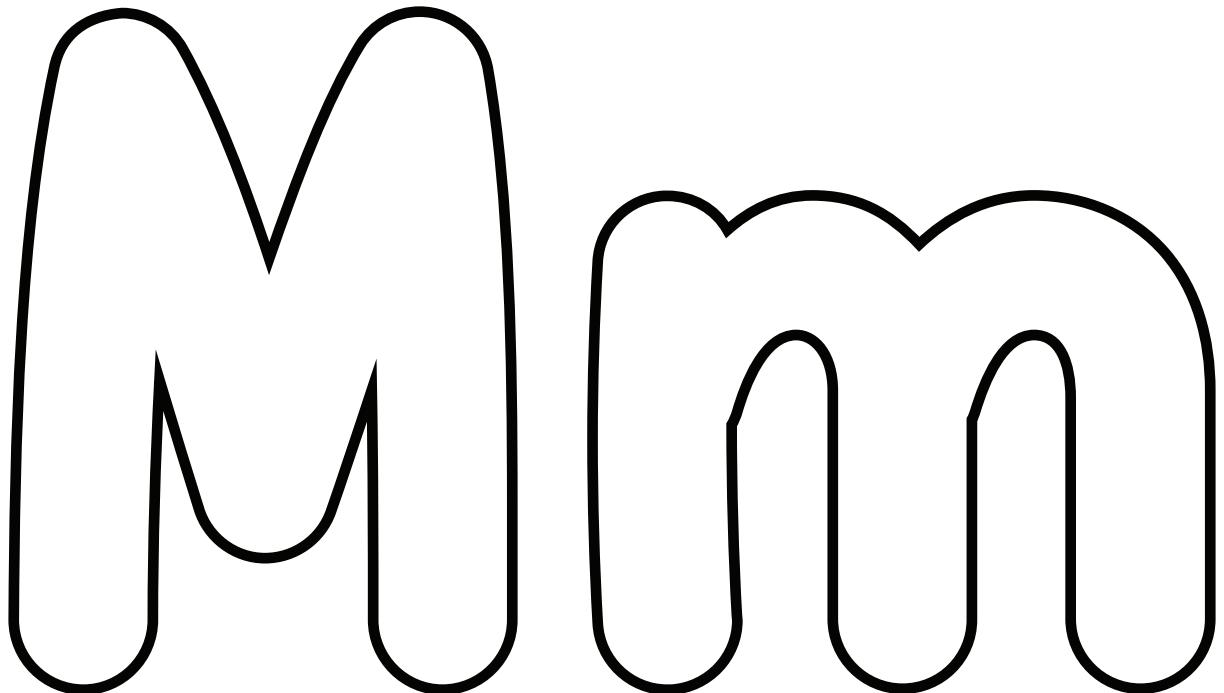

The key is used to unlock the secret message.

Ll is for Library

Ll
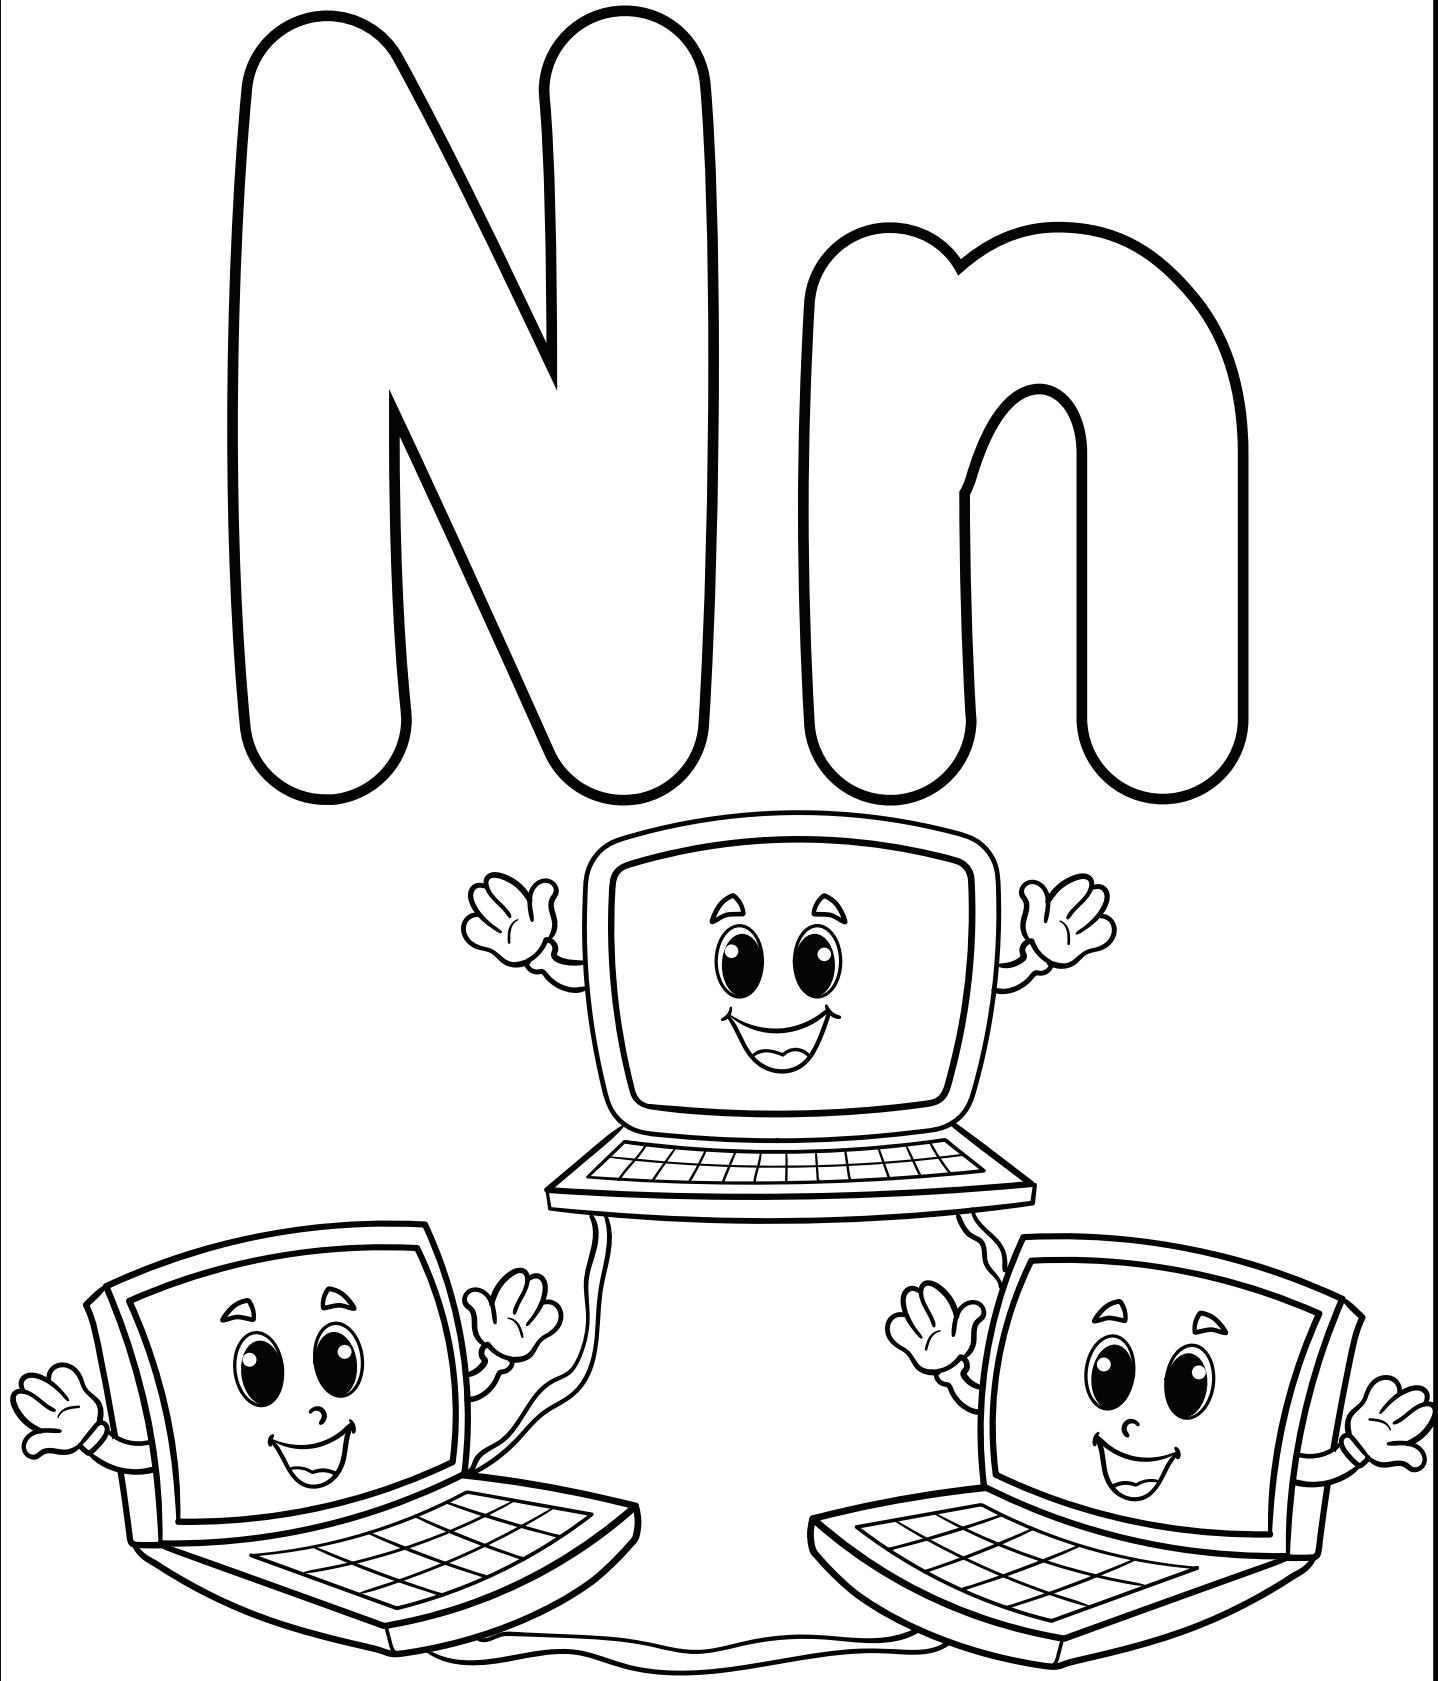

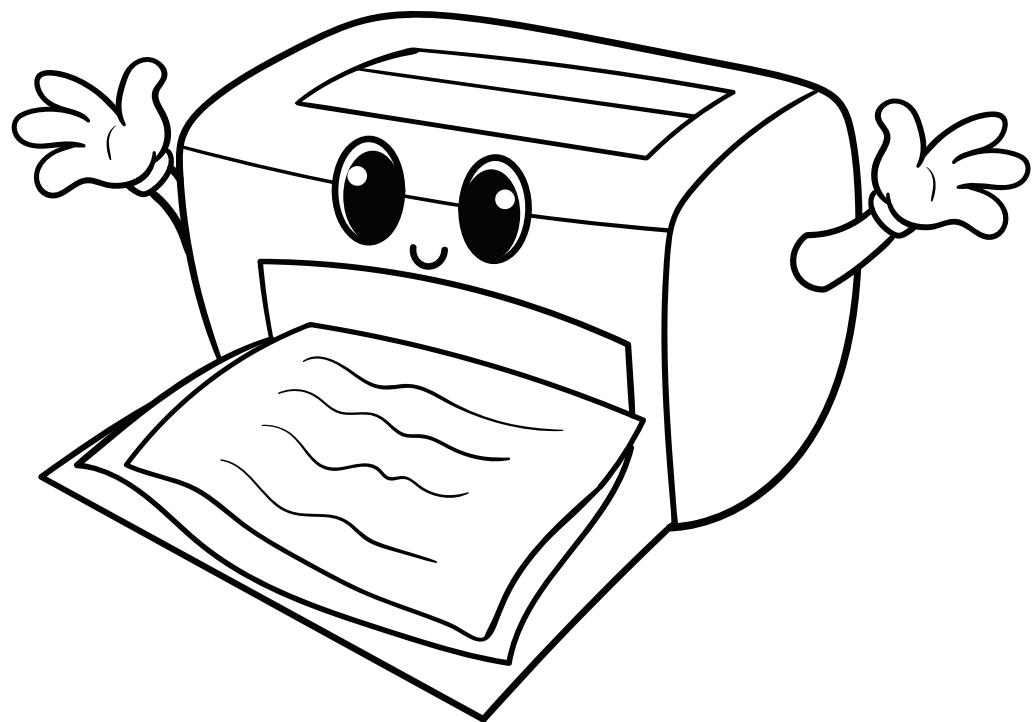

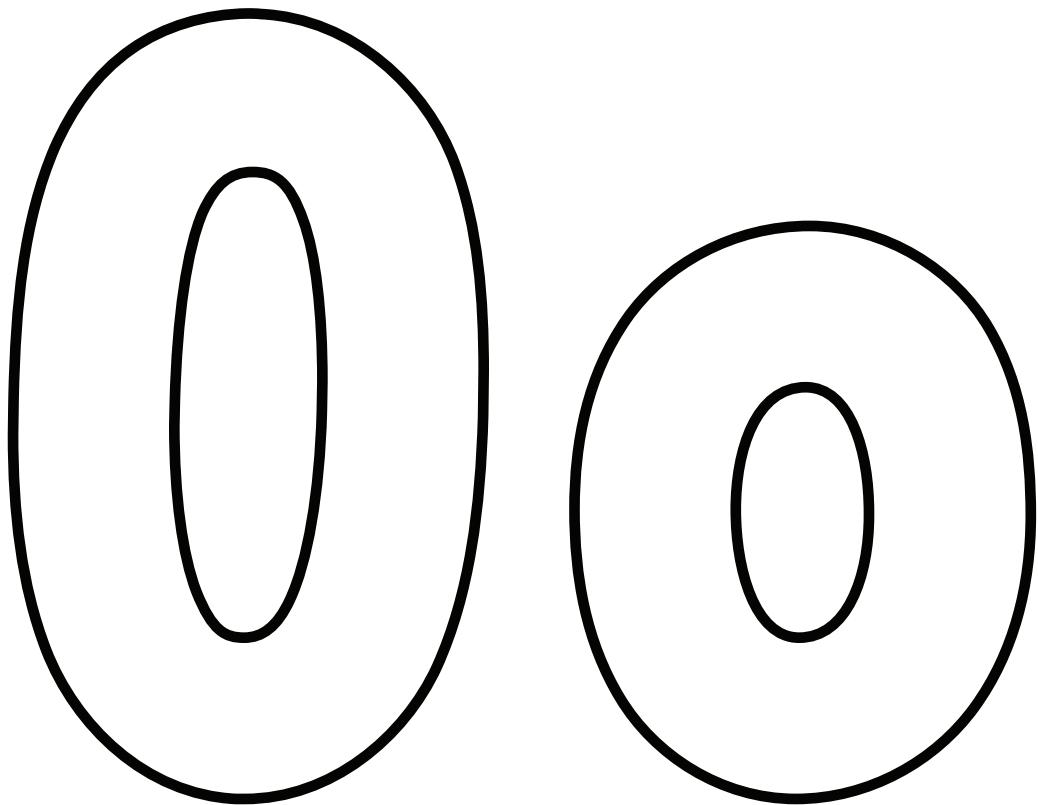

Mm is for Memory

Nn is for Network

Nn
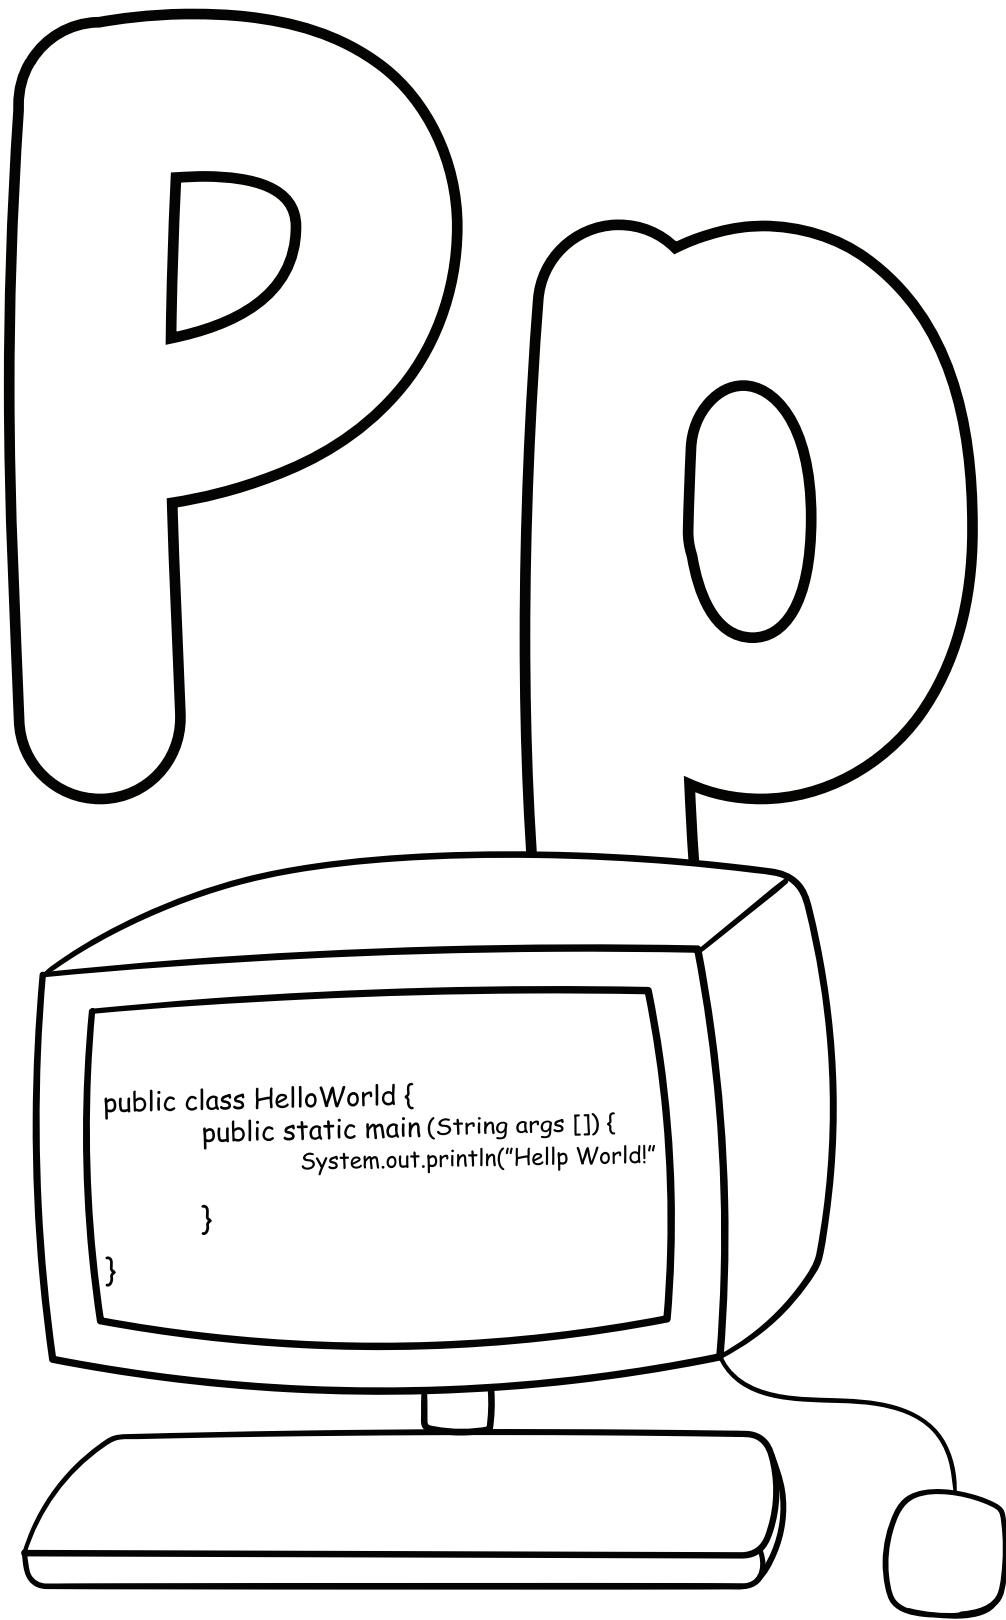

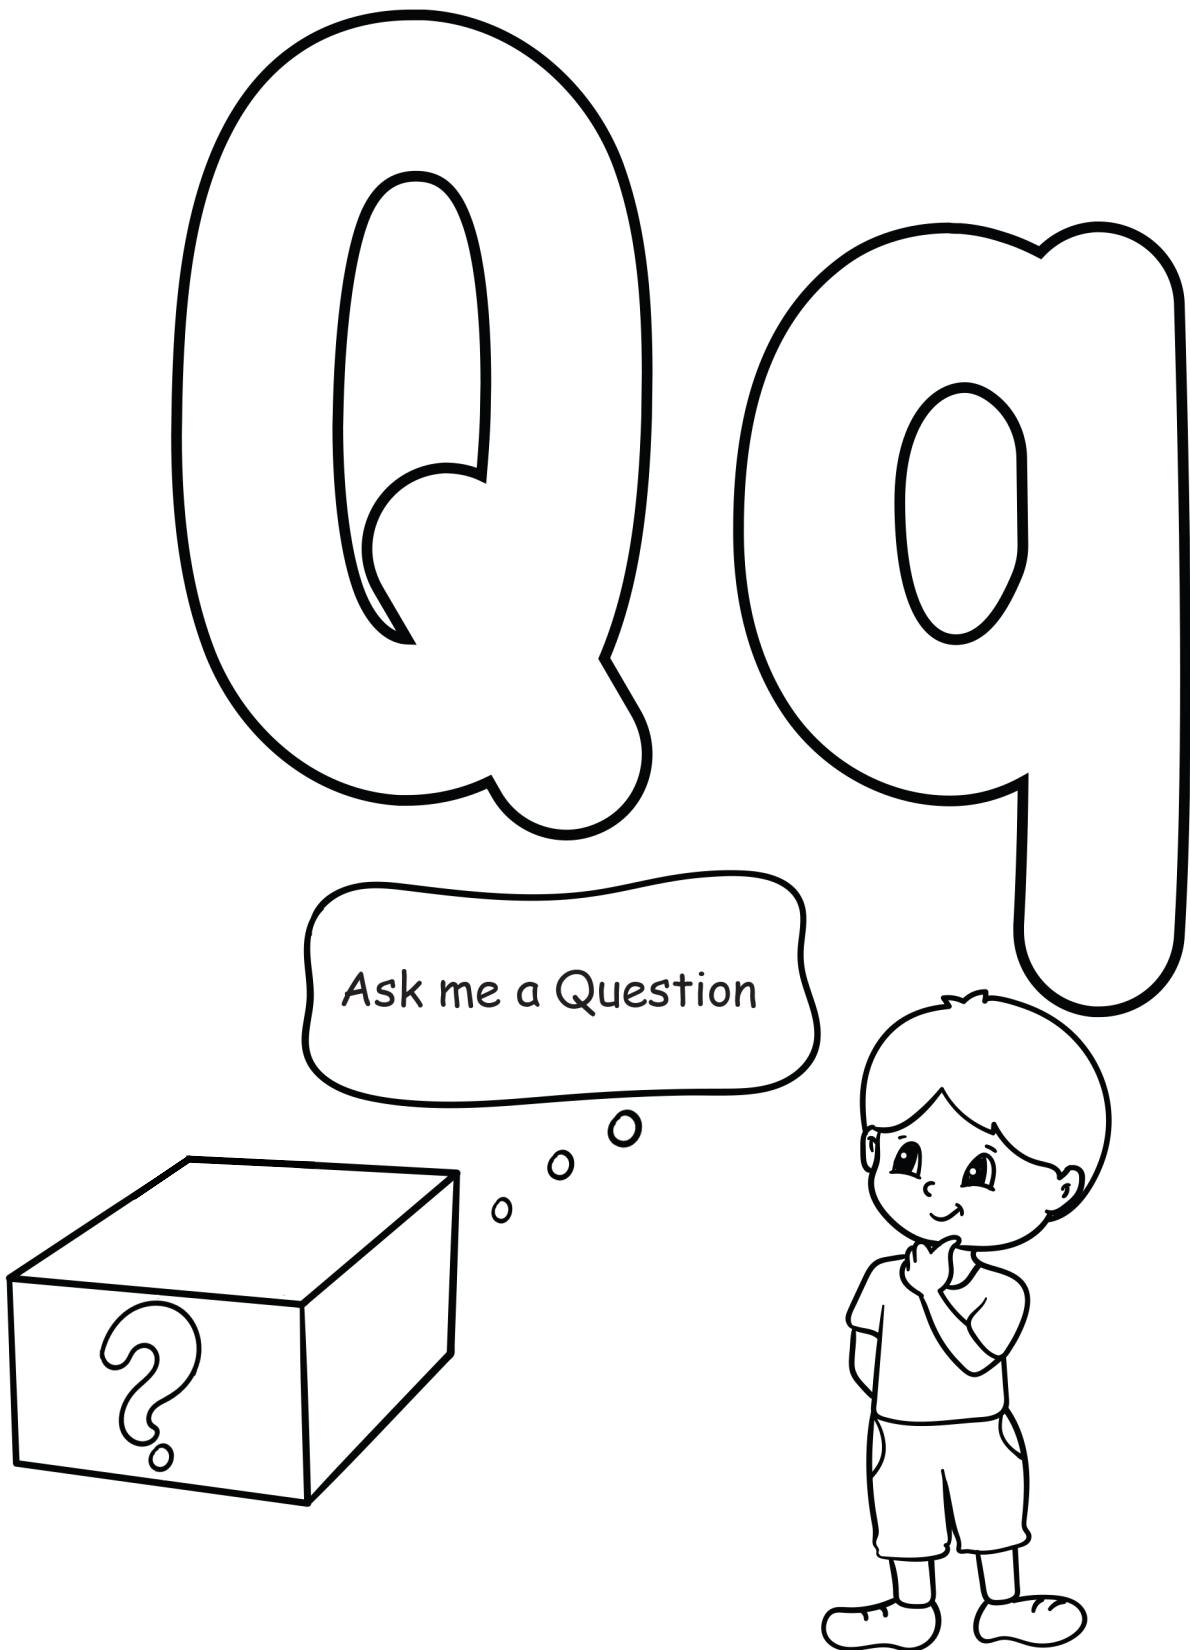

Oo is for Output Device

Pp is for Program

```
public class HelloWorld {
        public static main (String args []) {
                System.out.println("Hellp World!"

        }

}
```

Zz is for ZIP

ABCS OF COMPUTER SCIENCE GLOSSARY

Algorithm
A set of instructions for accomplishing a task

## Browser
Takes you anywhere on the internet

Cpu
Central Processing Unit
Carries out instructions so a computer can operate

Data
A collection of information

Encryption
The process of hiding information so it cannot be read without special knowledge

Firewall
A security system that monitors network traffic

Gigabyte (GB)
A specific unit of measurement in computers and other electronics (A unit of data that's equal to about 1 billion bytes of data)

Hacker
A person who uses computer skills to overcome technical problems

Internet
A network that connects millions of computers worldwide

Java
A programming language used by Computer Scientists

Key
A piece of information used to get some data

Library
A collection of reusable computer files to be used by programmers

Memory
Where the computer stores information for quick access

ABCS OF COMPUTER SCIENCE GLOSSARY

Network
A set of computers sharing the same resources

Output device
A way to get information out of the computer

Program
An algorithm turned into code to be run by the computer

Query
A request for information

Router
A box that passes information between computers

Software
A set of instructions that tell a computer what to do

Traffic
Traffic is data that is moving across the network

User
A person who uses a computing device

Virus
Harmful software that spreads from one computer to another

Wifi
Wireless signal that connects devices to the internet

Xml
A language that lets you make documents that both humans and computers can read

Youtube
An online video-sharing and social media platform

Zip
A way to put more than one file into a single place
